BACKGROUND PAPER:

The Government of the State of Kuwait wishes to inform the governments of the member states of the International Maritime Organization that Kuwait intends to seek election to the IMO-Council under category (C) at the elections to be held during the 25th session of the IMO General Assembly in November 2007.

Kuwait has served on the Council since 1960, and during this period Kuwait has actively participated in the work of the Council.

The merchant fleet operated by Kuwaiti ship owners is one of the most modern in the world. In specific sectors such as oil tankers, the total fleet operated by Kuwaiti companies consists of about 350 sea-going vessels with a gross tonnage of about 2,587,743 tons.

Kuwait has major ports on the Arabian Gulf which are considered to be the most modern ports in the world, and as is the case for all other sectors, sea ports and maritime transportation have undergone remarkable and rapid development to process over 30,052,836 million tons of cargo in 2006.

The Government of Kuwait expresses its hope that the

governments of the member states of the International  
Maritime Organization will support its candidacy for election  
to Group (C) of the Council.
